A man must reap as he sows If he sows ill-health he will reap ill-health. If he neglects his health the weeds of disease will grow up and choke it.

It is a daily and hourly marvel that men will recklessly neglect their health, when a moment's thought should tell them that they are courting death. It lies in most every man's power to live to a green old age. If a man would only take the same care of himself that he does of his horse, or cow, or dog, he would enjoy good health. When a man owns a hundred-dollar horse, and it gets sick, he does not waste any time about doctoring him up. When his garden gets full of weeds, he doesn't delay about rooting them out, for he knows they will choke out his vegetables. When he is out of sorts, sick, nervous, headachey, has no appetite and is restless and sleepless at night, he pays little attention to it The result is consumption, nervous prostration or some serious blood or skin disease Dr. Pierce's Golden Medical Discovery is the best of all medicines for hard working men. It gives edge to the appetite, facilitates the flow of digestive juices, invigorates the liver and purifies and enriches the blood. It is the great blood-maker and flesh-builder It cures 98 per cent. of all cases of lingering coughs, bronchial and throat affections, weak lungs, bleeding from lungs and kindred affections Do not wait until the lungs are too far wasted to admit of being cured

"As you know, five years ago the doctors had given me up to die with consumption,' writes Mr E. G. McKinney of Deepwater Fayette Co, W. Va. "I took treatment from Dr R V. Pierce, and am entirely well now I had taken steadily, as directed, his 'Golden Medical Discovery'"

Hardly Worth the Agony.

An artist of more than national fame chose the most beautiful girl in his town for a mate. Before they were married he said: "My dear, you are almost perfect. You lack but two things—your mouth is a little too small, and you are a little too thin. I wish that before we are married you would correct those two and become absolute perfection " For six months the poor girl wore a brass fixture in her mouth to stretch her jaw and ate fattening food. Then she was married. To an intimate friend she has since confessed that the agony of that six months' jaw stretching was not worth all she since has enjoyed as the wife of a distinguished artist.—New York Commercial Advertiser

Religion and the Possum.

An incident told by the Rev. V. B. Carroll in The Homiletic Review makes apparent the necessity in this transition period of getting the negro inwardly right in order that his relationship to society may be right.

We were driving out one Sunday from Decatur, when we came upon a negro, with a club in his hand and a freshly killed possum on his shoulder. We stopped to examine his prize, and the colonel said:

"My friend, do you know it is Sunday?"

"Sartin, boss."

"Are you not a religious man?"

"I are. I'ze jist on my way home from church."

"And what sort of religion have you got that permits you to go hunting on Sunday?"

"Religion, religion?" queried the man as he held the possum up with one hand and scratched his head with the other. "Does you 'spect any black man in Alabama is gwine to tie hisself up to any religion dat 'lows a possum to walk right across de road ahead of him an git away free? No, sah! A religion which won't bend a little when a fat possum heads you off couldn't be 'stablished round yere by all de preachers in de univarse."

FIRST ORGANIZED STEP TAKEN.

The Democrats of Virginia have taken the lead in an organized effort to secure the election of United States Senators by direct vote of the people. A convention was held at Richmond a few days ago, the proceedings of which should attract the attention of the entire country. The sentiment of the convention was unanimous upon the subject. The resolutions adopted, after reciting the evils connected with the present method of electing United States Senators, call for an amendment to the federal constitution providing for the election of Senators by direct vote. Pending such change they declare in favor of the nomination of party candidates for the Senate by a State primary, and the pledging of members of the legislature to vote for the individual so chosen. The convention requested the Democratic State Committee of Virginia to call such primary and to authorize the nomination of candidates, but in the event of the committee declining an appeal is to be made to the Democrats of each legislative district to nominate no man for the legislature unless he favor these principles and the candidate for Senator who will advocate them in the United States Senate.

Not the least important of the declarations of this convention was a resolution providing for the organization of a Democratic league, pledged to promote the election of United States Senators by direct vote of the people. The object of this league is not only to carry out the purposes of the convention in Virginia, but to secure co-operation of Democrats in other portions of the Union. The Virginia Democrats have taken the first organized step, and it is in the right direction. If the change is made it must be mainly through the Democratic party. While there is no doubt but enough Republican States would cast majority votes ratifying such a constitutional convention as is needed, the trouble will be to get it first through Congress for the people to vote upon. It is to be hoped that the Democrats in every State will follow the lead of their Virginia brethren and that similar leagues will become part and parcel of all Democratic State organization throughout the entire country.

LAND ASSESSMENTS.

The matter of assessing the lands of the State at their full value is receiving some attention. The wonder is, not that lands are to be assessed at what they are worth, but that they have been assessed at figures ridiculously small when compared with other assessments. Why should not lands be assessed for what they are worth? The Central Pacific Railroad company, for instance, is assessed at 17 cents an acre on 2,644,483 acres of land. Citizens are charged by the Government $1.25 an acre for land which is no better. Here is an opportunity to add several millions of dollars to the tax roll of the State.—*Silver State.*

Seventeen cents valuation for the railroad and $1.25 for other land of the same class, is about the same proposition that the Southern Pacific pays on its other property in the State. If all property is to be assessed at its full valuation and without discrimination, why not assess the C. P. track at $50-000 instead of $10,000 per mile? Why limit it to the land owned by the Company? However, the suggestion is a good one as far as it goes, but it doesn't go far enough.

ADMIRAL DEWEY has decided to take the eastern route on his return to the United States. His objection to coming home by the way of San Francisco, although an unusual one, is indicative of the character of the man and shows that he is composed of the stuff from which true heros are made. His modesty is as pronounced as his courage. He shrinks from the homage his countrymen would pay him as he crosses the country of his birth and allegiance and while it would be kindly and well meant he would avoid it. There are but few men who would object to posing for the plaudits of the people but he is one of them. Many of our former war idols have not only not sought to avoid but have encouraged popular demonstrations in their honor and glorification. Dewey is content with the consciousness of having performed his duty, and the recognition of his services by the Government he serves. When a hero has faced death unflinchingly scores of times and runs away from public applause it is evident that has heroism is the genuine article.

THE Salt Lake *Tribune* says we would never have had any trouble with silver if the ratio had been fixed at 15½ to 1. We don't know how that could have affected the matter unless it would have prevented the birth of John Sherman, Bill Stewart and other conspirators who effected its demonetization in 1873.

FUNSTON doesn't weigh half so much as Shafter, but it is said that there is probably not a man in the American army who would dare to rub the little Kansan's head,

Mrs. W. J. Tremaine

Will be located at the Riverside Hotel for a brief period with a most stylish and complete line of fine trimmed millinery and flowers. fine shoes for women and children, shirt waists, silk waists, ladies fine tailored suits, capes, jackets, wrappers and separate skirts, corset covers, gowns, drawers and skirts, summer union suits, vests and hosiery, fancy underskirts, belts, buckles, fancy combs, novelty neckwear and veilings, etc. Mrs. Tremaine will be pleased to see all her old patrons, who will doubtless remember her from seasons past, and extends a cordial invitation to all the ladies of Reno to view her stock. There will be a welcome whether you purchase or not. Remember, ladies, there's a charm in first choice, and that favor can only fall to the lot of the early comers.

THE RESERVATION MATTER.

Jones and Stewart Assure Mayhugh that He is Not in Danger of Decapitation.

The *Silver State* says that Senators Jones and Stewart hastened to assure Indian Agent Mayhugh that he need have no fear, as their influence at Washington will be extended in his behalf. This reminds us that there must have been a good deal of lying done by somebody to have secured Mayhugh's appointment in the first place. He was one of the most radical Bryan men in Elko county and was one of a committee to meet the Democratic nominee as he was passing through Nevada. On the night of the election he stated publicly that "he would sooner vote for a yellow dog than McKinley." After the result of the election was known he immediately commenced laying his wires for the appointment he received from the man who in his estimation was inferior to a saffron-hued canine.

It is reported that he was represented at Washington as a dyed-in-the-wool Republican and a staunch supporter of McKinley. It is a well known fact that his appointment was secured through Jones and Stewart, and the Winnemucca paper is probably correct in its statement that Mayhugh has their assurance of support in his present trouble.

To do the man justice, however, it is our belief that Mayhugh's political harlotry is the worst that can be said about him, but in that he is perhaps the worst in the Nevada deck. He is everything to everybody, and if he gets on the weak political side it is because he makes a bad guess. He occupied his present position during one of the previous Republican administrations and no peculation or other official dishonesty was charged against him. He also served as a member at a couple of sessions of the legislature without making a bad record. His present trouble is doubtless attributed to his grasping disposition which caused him to endeavor to monopolize the desirable places at the reservation for his own family. It is our opinion that he never should have sought nor received the appointment, and it is furthermore our judgment that the late disgraceful occurrences should result in an entire change in the personnel at the Shoshone reservation, Jones and Stewart to the contrary notwithstanding.

ALFRED NELSON.

Back to Nevada.

James Carrol returned yesterday from an extended trip through the far north. Upon leaving here about three months ago, he headed for Copper river. Arriving at Skaguay he became satisfied that it was useless to go to that place as there has never been an ounce of gold taken out at that point. He stopped at Juneau for a while and from there returned to Seattle and headed for Spokane and thence to different points in British Columbia. After a pretty general inspection of the country he became convinced that Nevada was a pretty good section of the earth to tie to and headed for home. He reports having had a pleasant trip.

Dewey Coming Home.

It is now learned that Admiral Dewey has been summoned by the President to return home. His counsel in matters pertaining to the Philippines is required without question by the chief executive. Dewey's superior knowledge about the needs and practical necessities of the Filipinos will greatly aid President McKinley in shaping an intelligent policy respecting the future of the islands. Now of all others is the time to deal wisely with the peoples who have for the present become wards of the United States, for which reason the best offices of the government should be directed with wisdom and prudence. The confidence of the Filipino people will have to be gained by a firm and kind course on the part of the United States; and for the purpose of shaping existing conditions and formulating new and more civilized methods than these peoples have known, the President and Congress should have all the light there is to be obtained. Admiral Dewey, because of his fine common sense and observing mind, connected with his opportunities for observation, make him above all others the man to advise and help in shaping the action of the United States government in the near future in matters pertaining to the Filipinos and their government.

It is expected that the Admiral will sail on Monday for New York on his flagship, the Olympia, by way of the Suez Canal. All dinners, banquets, and ovations tendered to him by cities, boards of trade and individuals have been declined. The reason given for declining these invitations is that he needs rest to recover his health, which is in a bad condition from over work and care since his arrival at Manila more than a year ago.

Acquitted.

Arthur McKnight, the young man who represented himself as a custom officer to Baron Rothschild, mention of which was made in the JOURNAL a few days ago, was tried yesterday by a jury in the Justice Court and acquitted. It appears that the United States law is faulty in connection with that character of offense, and U. S. District Attorney Summerfield did not think he could make a case hold against McKnight, so he was turned over to the State courts. He overhauled Rothschild's books and made himself very offensive in other respects, and it seems strange that he could commit such outrages without rendering himself liable to the law. He will probably be arrested as a vagrant today unless he left town last night.

The Deadly Grip.

Is again abroad in the land. The air you breathe may be full of its fatal germ! Don't neglect the "Grip" or you will open the door to Pneumonia and Consumption and invite death. Its sure signs are chills with fever, headache, dull heavy pains, mucous discharges from the nose, sore throat and never-let-go cough. Don't waste precious time treating this cough with troches, tablets, or poor, cheap syrups. Cure it at once with Dr. King's New Discovery, the infallible remedy for bronchial troubles. It kills the disease germs, heals the lungs and prevents the dreaded after effects from the malady. Price 50 cent and $1.00 Money back if not cure. A trial bottle free at S. J. Hodgkinson's Drug Store.

Mrs. Tremaine at the Riverside.

In another column will be seen the announcement of Mrs. W. J. Tremaine. She will be located at the Riverside for a short time, where she will have a fine line of millinery, tailored suits, shirt waists, shoes and numerous other articles of the latest designs and styles. Mrs. Tremaine has visited Reno in the past and has made many friends by her reliable business dealings, and they will undoubtedly be pleased to resume business relations with her again. All are made welcome, whether they purchase or not. Read her ad. on the third page of this issue.

Cheering Prospects.

C. D. Van Duzer and wife of Golconda arrived from the west yesterday morning and will remain here and in Carson for a few days. Mr. Van Duzer paid the JOURNAL office a friendly visit yesterday. He is enthusiastic over the prospects at Golconda, and Humboldt county generally and confidently predicts a most prosperous season for both the mining and agricultural industries.

Beats the Klondike.

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption accompanied by hemorrhages; and was absolutely cured by Dr. King's New Discovery for consumption, coughs and cold, he declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affection are positively cured by Dr. King.s New Discovery for consumption. Trial bottles free at S. J. Hodskinson's Drug store. Regular size 50cts. and $1.00. Guaranteed to cure or money refunded.

Location is Everything.

The Texas legislature goes at things in a direct way. They have a law which is a clincher on trusts, and now the legislature has passed a statute which punishes the giving of secret rebates on railway freights, by long terms of imprisonment. That is something which no railroad freight agent will care to run up against.—*Appeal.*

That's all right to commend such a law for Texas, but would the *Appeal* advocate a bill of that kind in the Nevada legislature? Not by a mill dam site.

MEETING OF CREDITORS.

IN THE DISTRICT COURT OF THE United States for the District of Nevada

In the Matter of M. Nathan, Bankrupt, } In Bankruptcy.

To the creditors of M. Nathan of Reno, in the county of Washoe, and district aforesaid, a bankrupt:

Making a Football.

A football requires a vast amount of work before it is ready for kicking over the gridiron.

The balls are covered with cowhide which must have remained in the tan pits a year or more. The hides are from 7 to 8 feet long, 6 to 7 feet wide and before splitting weigh from 25 to 30 pounds. The skin has to be split into two layers. The part to be used is soaked for a few days in a cleansing preparation. It is "sleeked" out to make it firm. It is fed and cut into shape. The strips are stitched, always by hand. The bladder is or should be of the finest Para rubber, and undergoes perhaps more processes than the cowhide. It is as necessary to the football as pneumatic tires are to the cycle; in fact, even more so, since no effective substitute for an air bladder has yet been discovered. The bladder is of immense strength, and is fitted with a nozzle through which the air is injected. These bladders are an expensive item and represent a considerable portion of the cost of manufacture. The bladder is inserted through the unlaced slit, and the next process is to blow it up.

The rubber nozzle fits over a metal tube on the machine. A few turns of the hand wheel and the ball is inflated. It is now laced up and handed over to the shaper, who pats down any unevenness in the seams.

The Truthful Marksman.

An extraordinary shooting adventure is recorded by A. L. Butler of the State museum, Selangor, Malaya. One day in last July a Malay woodcutter went out into the jungle to cut fuel, taking with him an old single barreled, muzzle loading gun loaded with the rather unscientific charge of a bullet and four buckshot. Moving quietly through the jungle, he suddenly came upon a tiger feeding on the carcass of a sambhur, and with touching confidence in his weapon fired at a distance of 20 paces. The tiger rolled over, and when the Malay cautiously approached he found not one dead tiger, but two, the second having been hidden from the sportsman, though only a few feet distant from the animal he fired at.

Mr. Butler, who made a post mortem examination of the tigers after they had been skinned, found that in each case a single buckshot had gone to the heart. One had also an insignificant wound on the head from another pellet. "For a really appalling fluke," as Mr. Butler says, this achievement of the Malay woodcutter will be hard to beat. It certainly is not a performance any sane white man will try to parallel, much less to eclipse.

There are 26 pencil works in Bavaria, of which 23 are in Nuremberg, the great European center of the lead pencil trade. These factories employ from 8,000 to 10,000 workers and produce 4,800,000 lead and colored chalk pencils every week.

The habit of reading at the dining table is strongly condemned by L'Hygiene Moderne, though it thinks looking over the paper at breakfast is comparatively harmless.
